ACCIONISTAS DE LA COMPAÑÍA TECNOLÓGICO INNOVACIONES SOCIEDAD ANÓNIMA
CELEBRADA EL VIERNES PRIMERO DE MARZO DE DOS MIL TRECE.

ACTA DE JUNTA GENERAL ORDINARIA
UNIVERSITATIS MEXICENSIS
TECHNOLOGIA E INDUSTRIAL ELECTRICA
MARCHO 26, 2003

Finally, the present study found that the more negative the attitude towards the self, the greater the level of self-esteem and the lower the self-efficacy. These findings support the notion that self-esteem and self-efficacy are important mediators of the relationship between self-attitudes and self-concepts. Moreover, the results suggest that self-efficacy is a better predictor of self-concepts than self-esteem.
