1. In political systems with no checks, laws, or controls, rights of citizens are violated and the government is unaccountable to the people.

For Rights Clearance information, see the publisher and their or his/her representative at the following addresses: (a) — John Wiley & Sons, Inc.

It is important to note that the results of this study are based on a cross-sectional design, which limits the ability to establish causality. Future research should employ longitudinal designs to investigate the temporal relationships between the variables studied.

For example, if a person's stress response is to be utilized constructively to enhance performance, appropriate feedback is important. One person might be so concerned about the possibility of making a mistake that he or she becomes paralyzed, unable to think or act. Another, on the other hand, might be so concerned about completing a task with minimum error, he becomes so preoccupied with the task that he is unable to think clearly.
