1. The first step is to identify the problem. In this case, the problem is that the system is not working properly.

* This new method of patenting software (see page 3) is virtually any program, regardless of size or cost, that is sold or licensed to others. The program must be original and must be a new, useful, and non-obvious invention. The program must be a new, useful, and non-obvious invention.

7.
