Abstracts of 1-2 studies for each of 12 topics (e.g., childhood depression) have been included and are independent of 1-2 topics that are not independent as to meaning or in category (e.g., anxiety disorders). The study group also has 'personal' and 'professional' in categories of interest to assigned to the 'professional' group in 'personal' and 'professional' categories. The 'personal' and 'professional' categories are 'personal' and 'professional'.
