...the ... of ...

The first part of the paper discusses the importance of the research and the objectives of the study. It also provides a brief overview of the methodology used in the study.

The second part of the paper presents the results of the study and discusses the implications of the findings.

2. Methodology

2.1. Study Design

The study was designed as a cross-sectional study. The participants were recruited from a convenience sample of students at a university.

2.2. Participants

The participants were 100 students who were enrolled in a psychology course at a university. They were recruited through a convenience sample.

2.3. Data Collection

The data were collected through a self-report questionnaire. The questionnaire was distributed to the participants and they were asked to complete it.

2.4. Data Analysis

The data were analyzed using statistical software. The results were presented in tables and figures.

3. Results

The results of the study are presented in this section. The first part of the results discusses the demographic characteristics of the participants.

3.1. Demographic Characteristics

The participants were 100 students who were enrolled in a psychology course at a university. They were recruited through a convenience sample.
