

JUNTA GENERAL DE ACCIONISTAS

the 1990s, the number of people in the United States who are in the labor force has increased by 10 million, and the number of people who are in the labor force who are aged 65 and older has increased by 1.5 million. The number of people in the labor force who are aged 65 and older is expected to increase by 3.5 million by the year 2010. The number of people in the labor force who are aged 65 and older is expected to increase by 5.5 million by the year 2020. The number of people in the labor force who are aged 65 and older is expected to increase by 7.5 million by the year 2030. The number of people in the labor force who are aged 65 and older is expected to increase by 9.5 million by the year 2040. The number of people in the labor force who are aged 65 and older is expected to increase by 11.5 million by the year 2050. The number of people in the labor force who are aged 65 and older is expected to increase by 13.5 million by the year 2060. The number of people in the labor force who are aged 65 and older is expected to increase by 15.5 million by the year 2070. The number of people in the labor force who are aged 65 and older is expected to increase by 17.5 million by the year 2080. The number of people in the labor force who are aged 65 and older is expected to increase by 19.5 million by the year 2090. The number of people in the labor force who are aged 65 and older is expected to increase by 21.5 million by the year 2100.

For $\alpha = 0$, the above theorem reduces to the classical result that a function f is analytic in a domain D if and only if it satisfies the Cauchy integral formula in D .
