

CHAPTER 10: THE ENVIRONMENT

Section 10.1: The Environment

Section 10.1: The Environment

Section 10.1: The Environment

Section 10.1: The Environment

Section 10.1: The Environment

1. The first step in the process of environmental assessment is to identify the problem or issue that needs to be addressed.
2. The second step is to gather information about the problem or issue.
3. The third step is to analyze the information and identify the causes of the problem or issue.
4. The fourth step is to develop a plan of action to address the problem or issue.
5. The fifth step is to implement the plan of action.
6. The sixth step is to monitor and evaluate the results of the plan of action.
7. The seventh step is to revise the plan of action if necessary.
8. The eighth step is to report on the results of the process.
9. The ninth step is to share the results of the process with the public.
10. The tenth step is to continue to monitor and evaluate the results of the process.
