Figure 1 consists of three horizontal timelines labeled (a), (b), and (c). Each timeline has a scale from 0 to 100. Timeline (a) is labeled 'Pretest' and shows three segments: a first segment with a duration of 10, a second segment with a duration of 10, and a third segment with a duration of 10. Timeline (b) is labeled 'Main experiment' and shows three segments: a first segment with a duration of 10, a second segment with a duration of 10, and a third segment with a duration of 10. Timeline (c) is labeled 'Posttest' and shows three segments: a first segment with a duration of 10, a second segment with a duration of 10, and a third segment with a duration of 10.

The diagram illustrates a two-dimensional lattice structure. It consists of a grid of points. Arrows indicate interactions between nearest and next-nearest neighbors. The lattice constant is labeled 'a' and the distance between next-nearest neighbors is labeled 'b'.
