SRI
...le hace bien al país!

1. *Journal of the American Medical Association*, 1997; 277: 1033-1036.

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (CG) and the experimental group (EG). The CG was divided into two subgroups: the control group (CG) and the control group (CG). The EG was divided into two subgroups: the experimental group (EG) and the experimental group (EG). The CG was divided into two subgroups: the control group (CG) and the control group (CG). The EG was divided into two subgroups: the experimental group (EG) and the experimental group (EG).

[illegible][illegible]

Figure 1. The research framework of the study. The research framework of the study is presented in Figure 1. The framework shows the relationship between the independent variables (Organizational Commitment, Organizational Identification, and Organizational Attraction) and the dependent variable (Organizational Attraction). The framework also shows the mediating role of Organizational Identification and Organizational Attraction in the relationship between Organizational Commitment and Organizational Attraction.
