1. **Identifying the problem** – the first step in the process of problem solving is to identify the problem. This involves understanding the situation, gathering information, and defining the problem. The problem should be stated in clear, concise terms, and the goal should be defined. The problem should be broken down into smaller, more manageable parts, and the steps should be identified. The problem should be stated in clear, concise terms, and the goal should be defined. As the number of people who have been infected by the virus has increased, the number of people who have died has also increased. The number of people who have died is directly proportional to the number of people who have been infected.

UNIT 11: THE HISTORY OF THE UNITED STATES OF AMERICA IN THE 19TH CENTURY (1800-1860)

1. Introduction

The nineteenth century (1800-1860) was a period of great change and development in the history of the United States. It was a time when the country was expanding its territory and its population, and when it was developing its economy and its culture. The century was marked by the discovery of gold in California (1848-1849), the invention of the steam locomotive (1825), and the discovery of oil in Texas (1859).

The century was also marked by the discovery of the continent of America (1492), the discovery of the continent of Asia (1498), and the discovery of the continent of Australia (1770).

The century was also marked by the discovery of the continent of Europe (1492), the discovery of the continent of Asia (1498), and the discovery of the continent of Australia (1770). The century was also marked by the discovery of the continent of Africa (1482), the discovery of the continent of Asia (1498), and the discovery of the continent of Australia (1770).

2. The History of the United States in the 19th Century

The history of the United States in the 19th century was marked by the discovery of the continent of America (1492), the discovery of the continent of Asia (1498), and the discovery of the continent of Australia (1770).

a. The Discovery of America

The discovery of America was a great event in the history of the world. It was the first time that a European had discovered a new continent. The discovery was made by Christopher Columbus in 1492. He was sailing for Spain when he discovered the continent of America.

The discovery of America was a great event in the history of the world. It was the first time that a European had discovered a new continent. The discovery was made by Christopher Columbus in 1492. He was sailing for Spain when he discovered the continent of America.

6. ANALYSIS OF THEORETICAL AND PRACTICAL CONSIDERATIONS

According to the theory, the growth rate of a system is determined by the rate of change of the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

7. Results

7.1. Theoretical considerations of growth

The growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

7.2. Experimental considerations of growth

The experimental results show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

The experimental results show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

8. Discussion

The results of the analysis show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

8.1. Theoretical considerations of growth

The theoretical considerations show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

9. CONCLUSIONS AND FURTHER RESEARCH

The results of the analysis show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

9.1. Theoretical considerations of growth

The theoretical considerations show that the growth rate of a system is determined by the number of nodes in the system. The growth rate is determined by the number of nodes in the system.

4. THE PROPOSED REVISIONS TO THE STANDARD OF PROFESSIONAL CONDUCT

Commentary:

Suppose you are a businessperson who has been accused of a crime and you are accused of violating this proposed standard.

(1) Intent (Purpose)

If you are charged with a crime, you will be asked to prove that you did not intend to commit the crime. If you are charged with a crime, you will be asked to prove that you did not intend to commit the crime. If you are charged with a crime, you will be asked to prove that you did not intend to commit the crime.

(2) Knowledge (Awareness of the Facts)

Suppose you are charged with a crime. You will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime.

Suppose you are charged with a crime. You will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime.

(3) Negligence (Carelessness)

Suppose you are charged with a crime. You will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime.

(4) Negligence (Carelessness)

Suppose you are charged with a crime. You will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime.

Suppose you are charged with a crime. You will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime. If you are charged with a crime, you will be asked to prove that you did not know the facts of the crime.

Individuals with a history of alcoholism or drug use are at a higher risk of relapse. This is because the brain's reward system is still sensitive to the substances, and the individual may experience cravings or triggers that lead to relapse. Additionally, the individual may have developed coping mechanisms that are no longer effective, or they may have lost touch with their support system. Therefore, it is important for individuals with a history of substance use to continue to seek support and treatment, even if they have been sober for a long time.

1. THE POLITICAL AND ECONOMIC DEVELOPMENT OF THE UNITED STATES

1.1. Introduction

1.1.1. The American Political System

The American political system is a complex of institutions and processes that have evolved over time. It is characterized by a system of checks and balances, a separation of powers, and a system of federalism. The system is designed to protect the rights of the individual and to ensure the stability of the government.

1.1.2. The American Economy

The American economy is a complex of institutions and processes that have evolved over time. It is characterized by a system of free enterprise, a system of competition, and a system of innovation. The system is designed to promote the growth of the economy and to ensure the well-being of the individual.

1.1.3. The American Society

The American society is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress.

The American society is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress. The system is designed to promote the growth of the society and to ensure the well-being of the individual.

The American society is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress. The system is designed to promote the growth of the society and to ensure the well-being of the individual.

The American society is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress. The system is designed to promote the growth of the society and to ensure the well-being of the individual.

1.1.4. The American Culture

The American culture is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress. The system is designed to promote the growth of the culture and to ensure the well-being of the individual.

The American culture is a complex of institutions and processes that have evolved over time. It is characterized by a system of individualism, a system of democracy, and a system of progress. The system is designed to promote the growth of the culture and to ensure the well-being of the individual.

19. QUESTION: WHAT IS THE MAIN DIFFERENCE BETWEEN THE TWO TYPES OF LAMINAR FLOW?

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

20. QUESTION: WHAT IS THE MAIN DIFFERENCE BETWEEN THE TWO TYPES OF LAMINAR FLOW?

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

The main difference is the presence or absence of shear stresses. In the case of laminar flow, the velocity profile is parabolic, and the shear stresses are zero. In the case of turbulent flow, the velocity profile is flatter, and the shear stresses are non-zero.

QUESTION 1: (10 marks)

QUESTION 1: A company is considering investing in a new project. The project has an initial investment of R100,000 and is expected to generate cash flows of R30,000 per year for 5 years. The company's cost of capital is 10%.

QUESTION 1.1: Calculate the NPV of the project.

The NPV of the project is calculated as follows:

$$NPV = -100,000 + \frac{30,000}{1.10} + \frac{30,000}{1.10^2} + \frac{30,000}{1.10^3} + \frac{30,000}{1.10^4} + \frac{30,000}{1.10^5}$$

$$NPV = -100,000 + 27,273 + 24,793 + 22,539 + 20,490 + 18,627$$

$$NPV = -100,000 + 113,722$$

$$NPV = 13,722$$

The NPV of the project is positive, indicating that the project is expected to generate a positive return. The NPV of the project is R13,722. The NPV of the project is calculated as follows:

$$NPV = -100,000 + \frac{30,000}{1.10} + \frac{30,000}{1.10^2} + \frac{30,000}{1.10^3} + \frac{30,000}{1.10^4} + \frac{30,000}{1.10^5}$$

$$NPV = -100,000 + 27,273 + 24,793 + 22,539 + 20,490 + 18,627$$

$$NPV = -100,000 + 113,722$$

$$NPV = 13,722$$

The NPV of the project is positive, indicating that the project is expected to generate a positive return. The NPV of the project is R13,722. The NPV of the project is calculated as follows:

$$NPV = -100,000 + \frac{30,000}{1.10} + \frac{30,000}{1.10^2} + \frac{30,000}{1.10^3} + \frac{30,000}{1.10^4} + \frac{30,000}{1.10^5}$$

$$NPV = -100,000 + 27,273 + 24,793 + 22,539 + 20,490 + 18,627$$

$$NPV = -100,000 + 113,722$$

$$NPV = 13,722$$

QUESTION 1.2: Calculate the IRR of the project.

The IRR of the project is the discount rate that makes the NPV of the project equal to zero.

QUESTION 1.3: Calculate the payback period of the project.

The payback period of the project is the time it takes for the project to generate enough cash to cover the initial investment. The payback period of the project is 3.33 years.

QUESTION 1.4: Calculate the profitability index of the project.

Statement of Financial Position as at 31st December 2020 and 2021

The following table shows the Statement of Financial Position of the company as at 31st December 2020 and 2021. The figures are in thousands of dollars.

- a) The company's management has decided to increase the dividend per share by 10% for the year ended 31st December 2021. The company has 100,000 shares in issue. The company's management has also decided to increase the dividend per share by 10% for the year ended 31st December 2020.

The company's management has also decided to increase the dividend per share by 10% for the year ended 31st December 2020. The company has 100,000 shares in issue. The company's management has also decided to increase the dividend per share by 10% for the year ended 31st December 2020.

The company's management has also decided to increase the dividend per share by 10% for the year ended 31st December 2020. The company has 100,000 shares in issue. The company's management has also decided to increase the dividend per share by 10% for the year ended 31st December 2020.

ARTICLE 100 (ARTICLE 100A) OF THE CONSTITUTION OF INDIA
PROHIBITION OF TRADE AND BUSINESS WITH ENEMY STATES

100. (1) (a) Prohibition of trade and business with enemy states

It shall be a punishable offence for any person to trade or business with any country or territory which is at war with India or with any country or territory which is a subject of a treaty or agreement with India for the purpose of trade or business.

The punishment for any offence under this article shall be imprisonment for any term not exceeding three years or with fine or both.

100. (1) (b) Prohibition of trade and business with enemy states

100. (2) Prohibition of trade and business with enemy states

Explanation

For the purposes of this article, a country or territory shall be deemed to be at war with India or to be a subject of a treaty or agreement with India for the purpose of trade or business if it is so declared by the Government of India.

It shall be a punishable offence for any person to trade or business with any country or territory which is at war with India or with any country or territory which is a subject of a treaty or agreement with India for the purpose of trade or business.

The punishment for any offence under this article shall be imprisonment for any term not exceeding three years or with fine or both.

Explanation of terms used in this article

The words "country or territory" in this article shall be construed to include any area or territory which is under the control of any power or authority.

Section 4: The Role of the State in the Development of the Economy

4.1 The Role of the State in the Development of the Economy

The role of the state in the development of the economy is a topic that has been debated for many years. There are several different views on this issue, and each has its own strengths and weaknesses.

- (1) The first view is that the state should play a major role in the development of the economy. This view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy.
- (2) The second view is that the state should play a minor role in the development of the economy. This view is based on the idea that the private sector is the most efficient way to develop the economy, and that the state should only intervene when necessary.
- (3) The third view is that the state should play a moderate role in the development of the economy. This view is based on the idea that the state should create a framework of laws and regulations that will guide the development of the economy, but that it should not allocate resources directly.

Each of these views has its own strengths and weaknesses. The first view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy. This view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy.

4.2 The Role of the State in the Development of the Economy

The role of the state in the development of the economy is a topic that has been debated for many years. There are several different views on this issue, and each has its own strengths and weaknesses. The first view is that the state should play a major role in the development of the economy. This view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy.

The second view is that the state should play a minor role in the development of the economy. This view is based on the idea that the private sector is the most efficient way to develop the economy, and that the state should only intervene when necessary. The third view is that the state should play a moderate role in the development of the economy. This view is based on the idea that the state should create a framework of laws and regulations that will guide the development of the economy, but that it should not allocate resources directly.

Each of these views has its own strengths and weaknesses. The first view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy. This view is based on the idea that the state has the power to allocate resources and to create a framework of laws and regulations that will guide the development of the economy.

PAUSE ACTIVITIES 1: THE NATIONAL ARCHIVES FROM 1900-1950 **TERMINAL 2: THE NATIONAL ARCHIVES FROM 1950-PRESENT**

1. Introduction/Overview:

Examine elements of the agency's early architecture as given through plans of Thomas Hastings, drawings of Frederick Johnson, drawings of Douglas C. Seligman, and others (p. 1).

pp. 1-15, 20-21 discuss the 1935 project to design plans for the National Archives and Records Administration. The plan was created by Thomas Hastings and the National Archives and Records Administration's Architectural Division.

Examine the plans of the National Archives and Records Administration (NARA) and the National Archives and Records Administration (NARA).

2. National Archives and Records Administration:

Examine the plans of the National Archives and Records Administration (NARA) and the National Archives and Records Administration (NARA). The plans were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division. The plans were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division.

3. Plans and Quality:

1. The National Archives and Records Administration (NARA) and the National Archives and Records Administration (NARA) were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division. The plans were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division.

2. The National Archives and Records Administration (NARA) and the National Archives and Records Administration (NARA) were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division. The plans were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division.

The plans of the National Archives and Records Administration (NARA) and the National Archives and Records Administration (NARA) were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division. The plans were created by Thomas Hastings and the National Archives and Records Administration's Architectural Division.

THESE RESULTS HAVE BEEN REPRODUCED IN THE LABORATORY OF THE
FEDERAL BUREAU OF INVESTIGATION, WASHINGTON, D. C.

Abstract

Das Ergebnis der Untersuchung ist ein 100-seitiges Handbuch, das den ersten Teil des 19. Jahrhunderts abdeckt. Es enthält eine Einführung in die Geschichte der Literatur, eine Liste der Autoren und eine Liste der Werke. Die Handbücher sind in drei Bände unterteilt: Band 1: Die ersten 25 Jahre des 19. Jahrhunderts; Band 2: Die nächsten 25 Jahre; Band 3: Die letzten 25 Jahre. Die Handbücher sind in drei Sprachen verfasst: Deutsch, Englisch und Französisch. Die Handbücher sind in drei Sprachen verfasst: Deutsch, Englisch und Französisch.

This paper presents a study of the effects of the use of the Internet on the learning of the English language in the context of the Spanish educational system. The study is based on a survey of 100 teachers and 100 students in a secondary school in the city of Madrid. The results show that the use of the Internet has a positive impact on the learning of the English language, especially in the area of vocabulary and grammar. The study also shows that the use of the Internet is more effective when it is combined with traditional teaching methods. The results of the study have implications for the design of educational programs and the use of technology in the classroom.

INSTRUKSI PENYUSUNAN LEMBAR KERJA SISWA (LKS) DAN LEMBAR KEGIATAN SISWA (LKS) PADA MATERI PEMERINTAHAN DAERAH

1. Tujuan dan Sasaran Pembelajaran

Setelah mempelajari materi ini, siswa diharapkan dapat memahami konsep pemerintahan daerah dan fungsinya.

Siswa diharapkan dapat menganalisis struktur organisasi pemerintahan daerah.

Siswa diharapkan dapat mengidentifikasi tugas dan fungsi lembaga pemerintahan daerah dan dapat menganalisis peran lembaga pemerintahan daerah dalam penyelenggaraan pemerintahan daerah.

2. Materi Pembelajaran

2.1. Pengertian Pemerintahan Daerah

Pemerintahan daerah adalah penyelenggaraan urusan pemerintahan oleh pemerintah daerah dan DPRD menurut asas otonomi dan desentralisasi.

Asas otonomi daerah adalah prinsip yang mengatur bahwa pemerintah daerah memiliki kekuasaan untuk mengatur urusan rumah tangganya sendiri.

Desentralisasi adalah penyerahan wewenang pemerintahan oleh pemerintah pusat kepada pemerintah daerah.

Asas desentralisasi adalah prinsip yang mengatur bahwa pemerintah pusat menyerahkan urusan pemerintahan kepada pemerintah daerah.

2.2. Struktur Organisasi Pemerintahan Daerah

Struktur organisasi pemerintahan daerah terdiri dari lembaga legislatif, eksekutif, dan yudikatif.

Legislatif adalah lembaga yang bertugas membuat undang-undang.

Eksekutif adalah lembaga yang bertugas melaksanakan undang-undang.

TEST DI VERIFICA SULLA LEZIONE DI MATEMATICA PER LA CLASSE PRIMA

1. SCELTA MULTICHOICE

1. La differenza tra due numeri è 15. Se il primo numero è 30, qual è il secondo numero?
 - a) 45
 - b) 15
 - c) 30
 - d) 10
2. Un rettangolo ha una lunghezza di 8 cm e una larghezza di 5 cm. Qual è la sua area?
 - a) 40 cm²
 - b) 13 cm
 - c) 40 cm
 - d) 13 cm²
3. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua circonferenza?
 - a) 31,4 cm
 - b) 31,4 cm²
 - c) 31,4
 - d) 31,4
4. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua area?
 - a) 60 cm²
 - b) 60 cm
 - c) 60
 - d) 60
5. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua circonferenza?
 - a) 31,4 cm
 - b) 31,4 cm²
 - c) 31,4
 - d) 31,4
6. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua area?
 - a) 60 cm²
 - b) 60 cm
 - c) 60
 - d) 60
7. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua circonferenza?
 - a) 31,4 cm
 - b) 31,4 cm²
 - c) 31,4
 - d) 31,4
8. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua area?
 - a) 60 cm²
 - b) 60 cm
 - c) 60
 - d) 60
9. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua circonferenza?
 - a) 31,4 cm
 - b) 31,4 cm²
 - c) 31,4
 - d) 31,4
10. Un rettangolo ha una lunghezza di 10 cm e una larghezza di 6 cm. Qual è la sua area?
 - a) 60 cm²
 - b) 60 cm
 - c) 60
 - d) 60

TABLE 1: SUMMARY OF THE FINANCIAL STATEMENTS FOR THE YEAR 2020
IN ACCORDANCE WITH THE FINANCIAL STATEMENTS OF THE COMPANY

The following table shows the financial statements of the company for the year 2020, in accordance with the financial statements of the company.

	2020	2019
Revenue	100,000	95,000
Expenses	75,000	70,000
Profit or Loss	25,000	25,000

1.1. Summary of the financial statements

The following table shows the financial statements of the company for the year 2020, in accordance with the financial statements of the company. The table shows the revenue, expenses, and profit or loss for the year 2020, compared to the year 2019.

	2020	2019
Revenue	100,000	95,000
Expenses	75,000	70,000
Profit or Loss	25,000	25,000

1.2. Revenue

The following table shows the revenue of the company for the year 2020, in accordance with the financial statements of the company. The table shows the revenue for the year 2020, compared to the year 2019.

1.3. Expenses

Summary of the financial statements for the year 2020

The following table shows the financial statements of the company for the year 2020, in accordance with the financial statements of the company. The table shows the revenue, expenses, and profit or loss for the year 2020, compared to the year 2019.

1.4. Summary of the financial statements for the year 2020

The following table shows the financial statements of the company for the year 2020, in accordance with the financial statements of the company. The table shows the revenue, expenses, and profit or loss for the year 2020, compared to the year 2019.

Il presente documento è riservato ai soli destinatari indicati e non deve essere diffuso pubblicamente. È vietata espressamente la ristampa o l'uso non autorizzato senza permesso scritto dalla Direzione Generale.

Obiettivo dell'analisi

Il presente documento ha lo scopo di analizzare e valutare le performance operative e finanziarie dell'azienda per il periodo di riferimento 2023, al fine di identificare le aree di miglioramento e supportare la decisione strategica.

Metodologia utilizzata

Il presente documento è stato elaborato utilizzando dati provenienti dai sistemi informativi aziendali e da fonti esterne affidabili. Sono state adottate metodologie di analisi quantitative e qualitative, con particolare attenzione alla comparazione con i benchmark di settore.

Conclusioni principali

L'analisi ha evidenziato un trend positivo delle performance operative nel periodo di riferimento, con particolare attenzione alla riduzione dei costi e all'aumento della produttività. Tuttavia, sono state identificate alcune aree di miglioramento, in particolare relative alla gestione delle risorse umane e alla ottimizzazione dei processi.

Il presente documento è riservato ai soli destinatari indicati e non deve essere diffuso pubblicamente. È vietata espressamente la ristampa o l'uso non autorizzato senza permesso scritto dalla Direzione Generale.

UNIT 11: FACTORIALS AND A LITTLE MORE ABOUT THE BINOMIAL THEOREM

11.1.1. Factorials and Binomial Coefficients

The factorial of a positive integer n is denoted by $n!$ and is defined by

Factorial of n :	$n!$	$n \times (n-1) \times (n-2) \times \dots \times 2 \times 1$
Factorial of 1:	$1!$	1
Factorial of 2:	$2!$	$2 \times 1 = 2$
Factorial of 3:	$3!$	$3 \times 2 \times 1 = 6$

11.1.2. Binomial Coefficients

The binomial coefficient $\binom{n}{r}$ is defined by

Binomial coefficient $\binom{n}{r}$:	$\frac{n!}{r!(n-r)!}$	$\frac{n!}{r!(n-r)!}$
Binomial coefficient $\binom{5}{2}$:	$\frac{5!}{2!(5-2)!} = \frac{5!}{2!3!} = \frac{5 \times 4 \times 3 \times 2 \times 1}{2 \times 1 \times 3 \times 2 \times 1} = 10$	$\frac{5!}{2!3!} = 10$
Binomial coefficient $\binom{5}{3}$:	$\frac{5!}{3!(5-3)!} = \frac{5!}{3!2!} = \frac{5 \times 4 \times 3 \times 2 \times 1}{3 \times 2 \times 1 \times 2 \times 1} = 10$	$\frac{5!}{3!2!} = 10$

11.2.1. Binomial Expansion

The binomial expansion of $(a+b)^n$ is given by

Binomial expansion of $(a+b)^n$:	$\sum_{r=0}^n \binom{n}{r} a^{n-r} b^r$	$\sum_{r=0}^n \binom{n}{r} a^{n-r} b^r$
Binomial expansion of $(a+b)^2$:	$\sum_{r=0}^2 \binom{2}{r} a^{2-r} b^r = \binom{2}{0} a^2 b^0 + \binom{2}{1} a^1 b^1 + \binom{2}{2} a^0 b^2 = a^2 + 2ab + b^2$	$\sum_{r=0}^2 \binom{2}{r} a^{2-r} b^r = a^2 + 2ab + b^2$
Binomial expansion of $(a+b)^3$:	$\sum_{r=0}^3 \binom{3}{r} a^{3-r} b^r = \binom{3}{0} a^3 b^0 + \binom{3}{1} a^2 b^1 + \binom{3}{2} a^1 b^2 + \binom{3}{3} a^0 b^3 = a^3 + 3a^2 b + 3ab^2 + b^3$	$\sum_{r=0}^3 \binom{3}{r} a^{3-r} b^r = a^3 + 3a^2 b + 3ab^2 + b^3$
