Abstract: The paper reports on a project of the Faculty of Education, University of Coimbra, Portugal, which aims to develop a methodology for the evaluation of the quality of the teaching process. The methodology is based on the use of a set of indicators that are derived from the analysis of the teaching process. The indicators are grouped into three categories: the quality of the teaching process, the quality of the teaching materials, and the quality of the teaching environment. The methodology is being used in a pilot study in the Faculty of Education, University of Coimbra, Portugal.
