ABSTRACT: This abstract contains a brief description of the results of the study on the effects of the implementation of the new curriculum on the quality of the teaching process and the learning process in the classroom. The study was conducted in the classroom of a primary school in the city of Bucharest. The results of the study show that the implementation of the new curriculum has led to a significant improvement in the quality of the teaching process and the learning process in the classroom.

concomitante, los datos de dicho libro fueron: temperatura y nivel de humedad al momento de la toma de muestra en condiciones de laboratorio.
