

1. The graph shows the relationship between time and distance. The x-axis is labeled 'Time (s)' and ranges from 0 to 10. The y-axis is labeled 'Distance (m)' and ranges from 0 to 10. A straight line starts at the origin (0,0) and goes up to (10,10).
- What is the distance traveled by the object in 5 seconds?
 - What is the speed of the object?
 - What is the acceleration of the object?
 - What is the initial velocity of the object?
 - What is the final velocity of the object?

2. The graph shows the relationship between time and distance. The x-axis is labeled 'Time (s)' and ranges from 0 to 10. The y-axis is labeled 'Distance (m)' and ranges from 0 to 10. A straight line starts at the origin (0,0) and goes up to (10,10).
