Figure 1. A schematic diagram of the experimental setup. The subjects were seated in a dimly lit room and viewed the screen through a mirror. The screen displayed the target and the starting position of the hand. The subjects were instructed to move the hand from the starting position to the target position. The distance between the starting position and the target position was 10 cm. The subjects were instructed to move the hand at a constant speed. The subjects were instructed to move the hand from the starting position to the target position. The distance between the starting position and the target position was 10 cm. The subjects were instructed to move the hand at a constant speed.
