Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: a control group and an experimental group. The control group received a standard training program, while the experimental group received a training program with a focus on the specific skills required for the task. The results of the training program were compared between the two groups.

1. **QUESTION**

Read the passage carefully and answer the questions that follow. The passage is about the importance of the environment and the role of the government in protecting it.

Read the passage.

THE ENVIRONMENT

The environment is the world in which we live. It is the sum of all the things that surround us, including the air, water, land, and living organisms.

Read the passage.

THE GOVERNMENT'S ROLE

The government has a responsibility to protect the environment. It can do this by making laws, setting standards, and enforcing regulations.

Read the passage.

CONCLUSION

The environment is a precious resource that we all share. It is our responsibility to protect it for the benefit of future generations.

The government has a key role to play in this. By taking action now, we can ensure a sustainable future for all.

Read the passage carefully and answer the questions that follow. The passage is about the importance of the environment and the role of the government in protecting it.

Read the passage carefully and answer the questions that follow. The passage is about the importance of the environment and the role of the government in protecting it.
