and no account by any legislature in this country. The word "slavery" was never mentioned by President John ~~Lincoln~~^{Abraham} in his speech at the Inauguration in 1861. When it is fully understood, the true history of the progress of this nation up to the time of the Civil War will show that every action taken by the Government in the Southern States was to secure the rights of the slaves and to protect them from the Southern slaveholders.

The average of 73.4% was used as a reference value for the 100% P-value in the present study. The corresponding values for the unadjusted and adjusted P-values were calculated by dividing the P-value from the 100% P-value of 73.4% by the P-value obtained from the adjusted P-value. The adjusted P-value was calculated by dividing the P-value obtained from the unadjusted P-value by the P-value obtained from the 100% P-value.

• However, one well-known concept is called the **mean field**, which is the average value of a variable across all the nodes in a network, or more precisely, the average value of a variable across all the neighbors of a node.

the Government to establish an Institute of Geology. This would meet every geological problem as it arose, and, by systematic research, would soon solve all the problems of interest to the country.

groups to come into being, and the resulting groups can include individuals from one generation. Because families change over time, so do the genealogical connections between individuals and their descendants. The concept of "lineage" is often used to describe the inheritance of traits or characteristics through generations.
