

THE UNIVERSITY OF ALABAMA
System Administration and IT

The University of Alabama System Administration and IT is a leading provider of information technology services to the University of Alabama System. We are currently seeking qualified candidates for the position of **System Administrator**.

The System Administrator will be responsible for the day-to-day operations of the University's information technology systems. This includes monitoring system performance, troubleshooting issues, and implementing security measures. The ideal candidate will have a strong background in Linux/Unix environments and a proven track record in system administration.

Job Responsibilities:

- Monitor and maintain the health of the University's IT infrastructure.
- Perform routine system updates and patches.
- Troubleshoot and resolve system issues.
- Implement and maintain security policies.
- Provide technical support to users.

Qualifications: A Bachelor's degree in Computer Science, Information Systems, or a related field is required. A minimum of 3 years of professional experience in system administration is preferred. Knowledge of Linux/Unix, networking, and cloud technologies is a plus.

For more information or to apply, please visit our website at www.ua.edu/it. We are an equal opportunity employer and encourage applications from all qualified individuals.

Application Process: Candidates must submit a resume and cover letter to hr@ua.edu. Only those selected for an interview will be contacted. Interviews will be held on a rolling basis.
