Abstract This article examines the role of the business press in the construction of the business press as a source of information for the business press. The article is based on a content analysis of 1,000 articles from the business press, published between 1990 and 2000. The results show that the business press is a source of information for the business press, and that the business press is a source of information for the business press. The article also shows that the business press is a source of information for the business press, and that the business press is a source of information for the business press.
