è stato un esempio che ha spinto molti a credere in un possibile approccio di questo tipo di risarcimenti in apparenza più efficace che la semplice applicazione dei criteri di responsabilità.

Proposta risarcito dei minori

Un'ipotesi di risarcito massiccio trasmettendo ai minori che i diritti dei bambini sono violati sia il risarcimento legale sia la sanzione penale. Ciò apre una via alternativa in campo anche nei casi in cui esiste una certa difficoltà nel individuare chi deve essere considerato responsabile del reato commesso.

Questo si è proposto in "L'Accordo di Roma" di ottobre 1994.

Proposta di un risarcimento collettivo nei reati di minori

Infine è stata avanzata l'ipotesi che sia l'intero popolazione dei minori a ricevere un risarcimento collettivo per le violazioni dei diritti umani comparse durante la guerra civile. In questo caso si tratta di una sorta di "risarcimento universale" che riguarda tutti i minori che hanno vissuto la guerra.

È stata proposta una serie di misure legislative e giuridiche per consentire la realizzazione di questo tipo di risarcimento.

Proposta di una legge sui minori

Una legge sui minori è stata avanzata da un gruppo di studiosi della Scuola di Giurisprudenza dell'Università di Roma "La Sapienza".

Proposta di una legge sulle minoranze

Un progetto di legge sulla minoranza è stato presentato dal Consiglio Nazionale dei Difensori dei Minori, con il quale si è costituita una Commissione di lavoro.

EDUCATION

Education is the most important investment we can make in our country. It is the cornerstone of our economic prosperity and our national security. We must invest in education to ensure that our children have the skills and knowledge they need to succeed in the global economy. We must also invest in education to ensure that our children are prepared for the challenges of the 21st century.

EDUCATION

A good education is the key to success in life. Education provides the tools and knowledge needed to succeed in the workplace and in society. Education is also essential for personal growth and development. It helps us to think critically, to solve problems, and to communicate effectively. Education is a fundamental right for all people, and it is our responsibility to ensure that everyone has access to quality education.
