ABSTRACT: Recent developments in the synthesis of poly(uridylic acid) are described. The synthesis of the uridylate nucleotide building block is discussed, and the synthesis of the homopolymer is presented.

The synthesis of the homopolymer is described, and the synthesis of the homopolymers of uridine and adenosine is presented. The synthesis of the homopolymers of uridine and adenosine is presented.

### INTRODUCTION

The synthesis of poly(uridylic acid) has been reported by several groups of workers. The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.

### SYNTHETIC POLY(URIDYLIC ACID)

The synthesis of the uridylate nucleotide building block is described, and the synthesis of the homopolymer is presented.
