

1. What is the purpose of the study?

2. What are the research questions?

3. What is the significance of the study? (Why is it important? What does it contribute to the field?)

4. What is the methodology used? (Describe the research design, data collection methods, and analysis techniques.)

5. What are the findings? (Summarize the results of the study, including any statistical significance.)

6. What are the conclusions and implications? (Discuss the implications of the findings for theory and practice, and suggest areas for future research.)
