Abstract. The effect of the frequency of the applied electric field on the dielectric properties of the polymer electrolyte was studied. The results show that the dielectric properties of the polymer electrolyte are strongly dependent on the frequency of the applied electric field. The dielectric properties of the polymer electrolyte are strongly dependent on the frequency of the applied electric field.

The first of these is the fact that the
 system is not a simple one. It is a
 complex system, and it is not clear
 whether it is a simple one or not.

1. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 2. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 3. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 4. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 5. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 6. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 7. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 8. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 9. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 10. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$

* = 100 = 100% = 100% = 100%
 100% = 100% = 100% = 100%
 100% = 100% = 100% = 100%
 100% = 100% = 100% = 100%

 PAPER NO. 4 OF THE JOURNAL

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. The number of people aged 65 and over is expected to increase from 200 million to 400 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015. The number of illiterate people in the world is projected to reach 1.7 billion by the year 2015.

1. *Abstracts* of the papers presented at the conference are included in the *Journal of the American Statistical Association*, Vol. 85, No. 411, 1990.

TABLE 1. *Summary of the results of the regression analysis of the relationship between the concentration of the chemical and the response of the organism. The values in parentheses are the 95% confidence limits for the regression coefficient. The values in brackets are the 95% confidence limits for the intercept of the regression line. The values in brackets are the 95% confidence limits for the intercept of the regression line. The values in brackets are the 95% confidence limits for the intercept of the regression line.*
