The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (NCHH). The independent variables are "Age of the head of household" (AGEHH), "Gender of the head of household" (GHH), "Marital status of the head of household" (MHH), "Education of the head of household" (EDHH), "Income of the head of household" (INHH), and "Number of children in the household" (NCHH). The results are presented in the following table:
