Figure 1 is a line graph titled 'Number of cases of COVID-19 in the United States'. The vertical axis (y-axis) is labeled 'Number of cases' and ranges from 0 to 1,000,000 in increments of 200,000. The horizontal axis (x-axis) is labeled 'Date' and shows months from March 2020 to March 2021. The graph shows a sharp increase in cases starting in March 2020, peaking in May 2020 at approximately 1,000,000 cases, followed by a decline and then a second, even larger peak in March 2021, reaching over 1,000,000 cases.
