Author's Note

the results of a similar analysis (see Table 1) suggest that the results in Table 2 are not driven by a particular choice of the number of lags.

It is important to note that the results of this study are based on a cross-sectional design. Therefore, the causal relationship between the variables cannot be definitively established. Future research should consider longitudinal studies to explore the temporal dynamics of these relationships.

En el libro *Formación de la conciencia en el niño*, los autores sostienen que la educación y el desarrollo intelectual del niño dependen de la calidad de la educación que recibe. En este sentido, la educación debe ser una actividad que se desarrolle desde la infancia y que se continúe a lo largo de la vida.

Los resultados de este estudio se compararon con los de Tóth et al. (2010), obtenidos por el mismo el 10 de marzo del 2011.
