

PROCEEDINGS OF THE 10th INTERNATIONAL SYMPOSIUM ON THE HISTORY OF MATHEMATICS

The 10th International Symposium on the History of Mathematics was held at the University of Toronto, Canada, from July 15 to 19, 1991. The symposium was organized by the Department of Mathematics and the University of Toronto Press. The proceedings of the symposium are published in this volume.

1. THE HISTORY OF MATHEMATICS

The history of mathematics is a branch of mathematics that deals with the development of mathematical concepts and methods over time. It is a field that is both historical and mathematical in nature. The history of mathematics is a branch of mathematics that deals with the development of mathematical concepts and methods over time. It is a field that is both historical and mathematical in nature.

Mathematics is a branch of science that deals with the study of numbers, shapes, and patterns. It is a field that is both historical and mathematical in nature.
