卷之三

As a result, the study of the relationship between the two variables is of great interest. The present paper aims to analyze the relationship between the two variables by using the methods of multivariate statistics. The results show that there is a significant positive correlation between the two variables, which indicates that the two variables are closely related.

de la chancery latine et de l'ordre des jésuites à Paris, dans lequel il fut nommé au poste d'archiviste en 1622.
